FALL 1957 PLANTING GUIDE

DWARF APPLE TREES

Imagine! Full size, fruitier, quality Apples hanging from branches on your tree that will never grow higher than you can reach. By using special techniques and rare imported roots Maloney's dwarf Apple trees often bear in just 2 or 3 years, providing you with luscious, fresh-picked flavored fruit. The striking beauty of a tree smothered with hundreds of apple-blossom-pink flowers is a sight to behold for you to enjoy each spring. Plant some of these wonderful trees this fall and save a season. Plant 2 or more varieties for cross pollination 10-20 ft. apart.

CARDINAL SHRUB

1845—A new hardy variety so breathtakingly different to deserve a place in your garden. Your "Cardinal Shrub" will burst into full spectacular bloom in May and June with hundreds of brilliant trumpet-shaped flowers an inch or more across, and there is scarcely a time throughout the summer and crisp fall days when there are not some blossoms. An extremely hardy plant that will thrive in any soil, full sun or partial shade and grows to a maximum height of 6-7 feet.

Strong, selected, 18-24 in. shrubs, \$1.25 each; 2 for \$2.35, postpaid.

"But when the bare and wintry woods we see, what then
so cheerful as the Holly Tree?"
— ROBERT SOUTHEY

HOLLY TREES

2922—We are able to offer asexually propagated, named varieties which are comparatively free of disease and insect pests and have been tested to withstand temperatures colder than 20 below zero. These Holly trees are evergreen the year around, during the winter months the abundant scarlet berries sparkle like rubies accenting the

lustrous, dark green leaves. Grow to a height of 40 ft., if not trimmed, but are more pleasing if you trim your own Christmas decorations, creating a compact tree of from 4 to 10 feet. Hollies may be pleasingly planted close to the house or as accents. It is necessary to plant two or more trees to insure an abundance of attractive berries. Since one male tree will pollinate from 1 to 10 trees, we send you a package of 3 female and 1 male tree with a special, easy to follow, complete Holly culture booklet.

CHRISTMAS ROSE (Helleborus Niger)

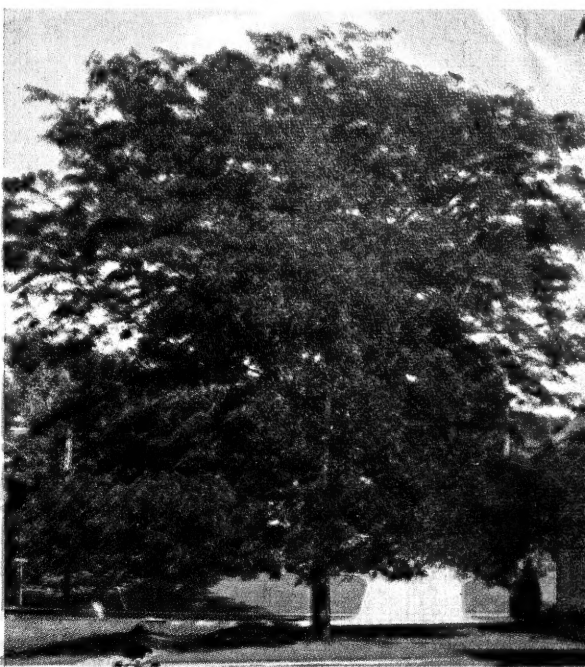

3562—Sensational Botanical Garden Beauty will be yours when you plant these rose-like flowers that bloom when all else is bleak and barren. Freezing temperatures, snow and ice have no effect, for when the winter sun shines they spring into full glory as if nothing happened. Plant where everyone can see them about Evergreens, against walls or trees or in shady nooks, any place that gets cooling summer shade but winter sun. Christmas Roses grow about 10 inches and the deeply cut decorative leaves are green all year. **PRICE: Choice healthy plants, 2 for \$2.70, postpaid.**

CRIMSON KING MAPLE

Red Leaf — Truly the King of All Maple Trees

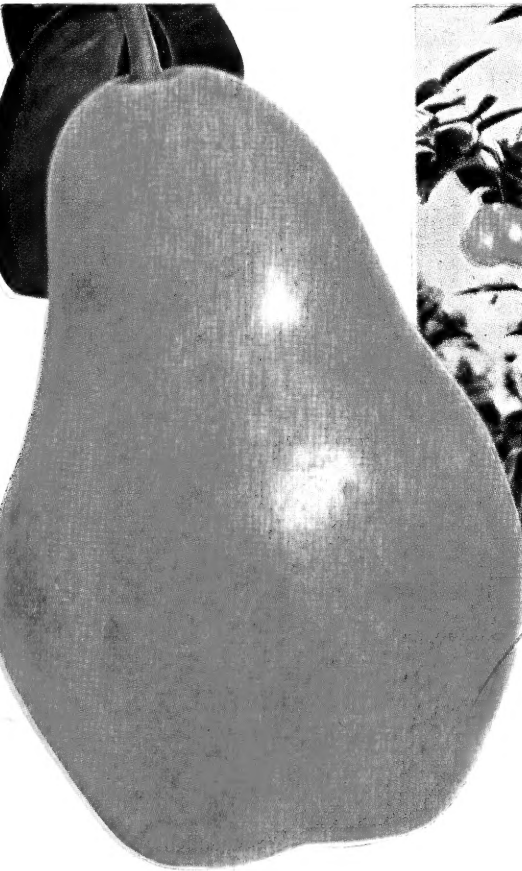

2517—A maroon or red-leaved tree which originated in Europe. After being observed for ten years or more it has proven in every instance to maintain its gorgeous red color all through the season. Its rounded, compact top makes it the best of all red leaf shade trees. We recommend it without reservation. Maturity height 50 ft. Pat. No. 735. **PRICE: 4-5 ft., \$4.95 each.**

New Seedless MORAINE LOCUST
FAST GROWING — LONG LIVED — SEEDLESS

2516—This beautiful new form of Locust, which is almost entirely free from thorns, is a vigorous and rapid grower. It will create light, airy shade quickly with its canopy of lace-like foliage. Free from insect pests. It is a hardy tree—grows on most every kind of soil. It looks somewhat like American Elm in its graceful beauty. It is a clean tree with no unsightly seeds on your lawn. We recommend it to you highly. **PRICE: 5-6 ft., \$5.95 each.**

Supremely Fine Trees that are Associated with Nature's Finest Fruits

SEEDLESS PEAR

808—Many say it's impossible, but you've never seen anything like these wonderful trees. Guaranteed to have no seeds and no core. You'll pick bushels of golden yellow Pears that are a gourmet's delight. Sweet, juicy, golden yellow goblets of flavor packed goodness, resembling the ever popular commercial favorite "Bartlett."

Wherever these trees are planted folks tell us they are delighted. The fruit is a sensation and the trees are extremely easy to grow, thriving in any good garden soil. Their rugged hardiness and built-in vigor is a source of pride and satisfaction wherever grown.

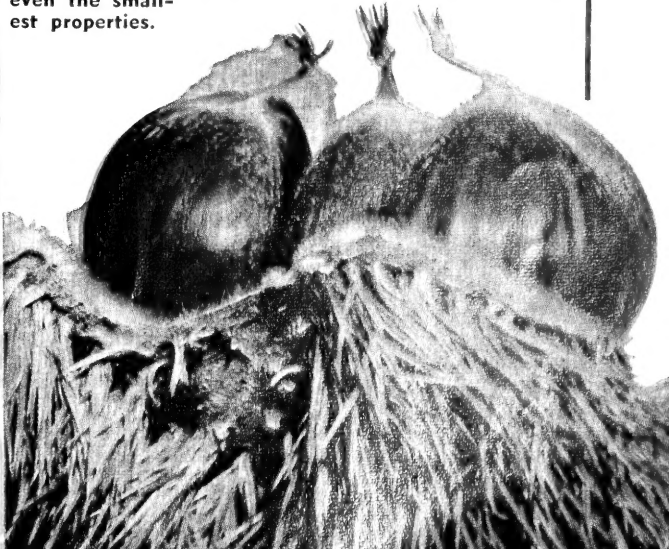

NEW CHESTNUT TREES

**Hardy, Disease Resistant,
Sweet Tasting Chestnuts**

7005—Maloney's bring you the famous tradition and taste treat of your own fresh roasted Chestnuts. By selecting special Chinese stock these trees are guaranteed trouble free and will bear bumper crops of golden brown Chestnuts. Maloney's trees thrive in any good garden soil but prefer a sunny location, growing to about 30-40 feet, casting cooling shade. Plant two or more trees to insure pollination.

PLUMS

Burbank

When you plant Maloney's proven Plums, the picked, sweet flavor and mouth watering goodness is an experience you and your family can enjoy over and over.

JAPANESE VARIETIES

1003 ABUNDANCE. One of the best Japanese Plums. Tree grows rapidly, is healthy, comes into bearing remarkably young and yields abundantly. Fruit medium size, amber with markings of red; juicy, sweet. August.

1004 BURBANK. Beautiful large, round, red variety. Trees bear early and yield big crops. Tasty yellow flesh is delicious, sweet and juicy. A very hardy variety highly recommended.

Two varieties such as Abundance and Burbank are best planted together to assure a crop. Japanese varieties, since they bloom earlier, are not suited as pollenators for European varieties.

EUROPEAN VARIETIES

1006 FELLEBERG PRUNE. (Italian). The most popular commercial Prune. Valuable for dessert, for market and drying or preserving. Fruit large, dark purple with blue bloom, oval, pointed and tapering. Flesh is juicy and delicious, separating freely from the stone. Late September.

1008 LOMBARD. Handsome reddish Plum. Flesh yellow, juicy, pleasant. An excellent variety and can be relied upon for a crop when other varieties fail. Late September.

1012 YELLOW EGG. A late ripening, large golden yellow fruit. Excellent for cooking and eating fresh from the tree. The largest and the handsomest of all yellow Plums. September.

Above varieties are self fruitful except Lombard, which requires another tree for cross pollination.

BETTER Maloney's APPLE TREES

Maloney's Apple trees are grafted upon vigorous Malus understock by master nurserymen assuring you of remarkable growth, flowering beauty and abundant yields. Apple trees require cross pollination. For bumper crops plant two trees of different varieties.

SUMMER RIPENING VARIETIES

2 EARLY MCINTOSH. The ideal early ripening red variety, with same desirable qualities as the later maturing McIntosh. Trees hardy and vigorous.

3 LODI. A newer yellow variety that is excellent for cooking and eating with tangy acid Apple flavor. Ripens early and is an abundant bearer.

FALL RIPENING VARIETIES

27 ROGERS RED MCINTOSH. Solid red McIntosh, classed as one of the most valuable new fruit introductions in years. Annual bearer. Fruit is the same size as the common McIntosh, but it is not striped. Flesh white, fine grained, very tender, juicy and refreshing. Better quality than common McIntosh and hangs better on tree.

10 DOUBLE RED DELICIOUS. Perhaps most popular market variety. Flesh fine grained of excellent quality and flavor. Large, dark red color. Very hardy. Bears every year.

12 JONATHAN. Skin is rich red all over. Excellent for eating fresh, baked, cooked or dried. Jonathan bears young and always produces an excellent crop.

17 RED NORTHERN SPY. One of the best fall varieties; juicy, crisp, tender flesh from bright red fruit. Fine for cooking. Excellent for dessert.

18 RHODE ISLAND GREENING. Fruit large and handsome, smooth, dark green overspread with yellow. Most highly prized for cooking. Tree very heavy yielder.

24 CORTLAND. Large, bright red, round Apple which hangs on tree well. Very high quality. Trees vigorous, bears regularly. Fine for cooking.

25 RED ROME. Solid red Apple of excellent quality. Prolific bearer each year. Leading commercial variety and recommended for home planting.

26 YELLOW DELICIOUS. This predominantly golden colored Apple supersedes all others for appetite appeal. It has the same unique form as the Red Delicious, and is a favorite with home gardeners as well as the commercially minded grower. Juicy and fine quality.

MALONEY'S "DARLING DWARFS"

Fruit — Flowers — Foliage

Now Maloney's have developed the perfect tree for modern living! Imagine your garden graced by a perfectly shaped "Darling Dwarf" tree that will bring you year around pleasure with graceful rounded form, beautiful fragrant flowers and luscious tasting fruit! !

Many trees soon become too large or misshapen and have to be replaced, but "Darling Dwarf" developed by grafting upon special roots are guaranteed never to grow taller than ten feet. They will remain ever rounded and shapely, accentuating the architectural lines of your home. Many experienced gardeners plant these trees for the springtime spectacle of a rounded mound of myriad pastel colored blossoms, scenting the air with the very fragrance of spring.

All summer the graceful limbs of these "Darling Dwarfs" are clothed in lustrous green foliage, but with the advent of autumn, lo and behold you are graced with orchard size fruit hanging within reach, ready to be enjoyed.

Be one of the first in your community to plant a "Darling Dwarf." You'll be glad you did. Supply extremely limited. Be sure to order early.

DWARF PEAR

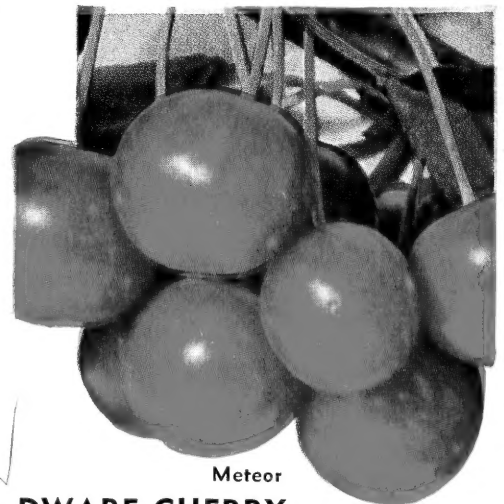

8076 BARTLETT. Large, yellow, waxy rich and juicy. Recognized as the leading commercial variety.

8077 CLAPPS FAVORITE. Pale lemon-yellow with brown dots of fine texture. Melting, buttery, juicy and delicate flavor. Hardy and productive.

8079 SECKEL. A small yellow, long time favorite for pickling. Flesh fine grained. Very productive and hardy. Plant 2 varieties for cross pollination. The combination Seckel and Bartlett is incompatible and will not pollinate each other.

Maloney's Best Northern Grown Varieties

1203 BLACK TARTARIAN →

Very large, bright purplish black, tender, juicy, very rich. Tree remarkably vigorous and erect grower, and an immense bearer. One of the most popular varieties in all parts of the country. Late June.

1204 NAPOLEON-YELLOW OXHEART.

(Royal Ann). The fruit is large, amber-yellow with blushing red cheek. Perhaps the best known and leading light Cherry. Enormous cropper. Bears in early July.

1210 SCHMIDTS BIGARREAU.

The biggest and best ebony-black Cherry immediately following Black Tartarian. Fruit clings in attractive clusters and is sugar sweet.

1202 WINDSOR. A succulent Cherry with pink flesh and almost black skin. Often referred to as "Black Oxheart." An excellent commercial variety widely planted. Ripens late July.

1206 EMPEROR FRANCIS. A newer Cherry of the Napoleon type whose high quality is recognized by leading orchardists. Darker cheek than Napoleon, ripening July 4.

(Sweet Cherries are unfruitful, plant 2 or more varieties to insure prolific bearing. Sour Cherries are self fruitful).

Montmorency

1201 MONTMORENCY

"Best of the Sours"

The largest and best Cherries grown. Fruit dark red, very firm, fine flavor, regular bearer of enormous crops. Excellent for pies. Canning factories use hundreds of tons yearly. Our marvelous strain is certified virus free and always brings the highest price. A beautiful sight in the orchards and decorative on the lawn.

624 GOLDEN JUBILEE. Introduced at the New Jersey Experiment Station and has proven itself with commercial growers. Resists cold and is a sure cropper with large yellow, tender, sweet fruit. Without equal for it is extremely fine, freestone fruit.

622 ELBERTA. Best commercial money-making variety. Fifty percent of all Peaches planted are Elberta. Tree hardy, disease resistant, very thrifty and productive. Fruit large, oval, yellow and red cheek. Flesh yellow, firm, juicy, of high quality. Splendid shipper and keeper. Freestone.

623 HALE-HAVEN. This exceptionally fine Peach is the result of crossing the marvelous J. H. Hale with South Haven. Fruit large, beautiful yellow. Flesh yellow, high quality, good shipper. Its high color even before ripening enables premature picking for distant markets. Tree is hardy, strong grower. Yields heavy crops early September. Freestone.

607 J. H. HALE. A great big yellow Peach with crimson overtones. Flesh golden yellow with delicious flavor. Bears extra bushels when planted with another variety. Freestone.

602 BELLE OF GEORGIA. A real "Georgia Peach." Large oval, red cheeked variety with tasty white flesh that is juicy, palate-pleasing. Hardy, productive and should be in every planting.

617 RED HAVEN. A new early Peach that will bring you pleasure and profit. Rigorously tested and found superior in every way. Fine flavor, firm flesh, and red color when other Peaches are still green. Hardy. Freestone.

\$4.00 value

806 FANCY BARTLETT PEARS. Always "top" the market. One or two Bartlett Pear trees planted in the home garden will furnish a considerable amount of fruit that is A-1 in quality and quantity, and tops for either cooking or eating. It is recognized as the leading commercial Pear. Large yellow, waxy, rich and juicy; tree hardy, regular and heavy bearer. Early October.

802 CLAPPS FAVORITE. Ripens before Bartlett, which it resembles and is a variety that can be relied on when all others fail. Large goblet shaped fruit colored pale yellow with juicy sweet delicate flavor.

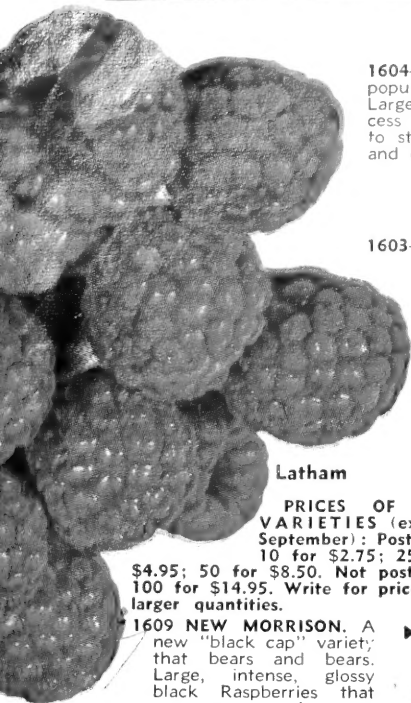

801 BEURRE BOSC. The long tapered fruit variety that has long been a favorite wherever grown. Deep yellow to brown coloring with tender rich tasting flesh and pleasingly aromatic. A slow grower but heavy producer. Keeps very well late into winter.

805 SHELDON. Distinctively different, russet skin overlaid with ruddy red cheek. Flesh is fine texture and very juicy with a tantalizing taste that is perfectly perfumed. Trees are hardy and bear heavily.

(For best results plant any two varieties because Pears are self unfruitful).

DWARF APPLE TREE

8008—Not one, not two, not three—but five different varieties of Apples, all growing on one tree! Yes, Maloney's "5-N-1 Dwarf" is a complete heavy bearing orchard all by itself. If you have room for only one tree, choose the "5-N-1" for you can pick a succession of delicious Apples from early to late, time tested red, yellow and striped varieties. Even though these trees are "dwarf", the fruit is fancy size appearing even bigger because of the illusion of large size fruit hanging from branches of a tree only head high. Since these trees will never grow higher than you can reach, you need no ladders, no pruning poles, no high pressure sprayers, just bushels of luscious fruit in two to three years. You need plant only one tree since the five varieties will cross pollinate each other. All these varieties on one tree—Early McIntosh, Yellow Delicious, Red Delicious, Cortland, Yellow Transparent. **PRICE: 3-yr., large, 4-5 ft. trees, \$4.75 each.**

Standard "ORCHARD SIZE" 5-in-1 Trees

28—Now you can enjoy the pick of a whole orchard from only one tree. Unbelievable but true! Actually has five kinds of Apples on one tree. You need give no special attention, just pick and pick; red and yellow, early and late. An ideal one-tree orchard that will bear bumper crops and provide useful shade. Standard trees grow to a height of about one story and are recommended for all properties. Bears in about three to six years. Early McIntosh, Yellow Delicious, Double Red Delicious, Cortland, Yellow Transparent all on one tree.

PRICE:

2-yr., large, 4-6 ft., \$3.50 each.

RED EMPEROR TULIP

5124—Enjoy the world's earliest, largest, most vivid red Tulip, with blooms measuring 9 in. across on sturdy, 15-inch stems. Certainly a royal member of the Tulip kingdom both in size and beauty. Now at Maloney's new low price you can afford to plant liberally for a more delightful garden next spring.

PRICE: 10 for \$1.00; 25 for \$2.25; 50 for \$4.45; 100 for \$8.75.

PEACOCK TULIPS

5131—An entirely new race of Tulips developed from species found high in the mountains of Persia and Turkey. These excitingly different Tulips are the latest in real spring beauty, being a mixture of lovely pastel shades from pale yellows to rich blues shading through the entire spectrum, with colors known before only to the Royal Peacock. Be among the first to own and enjoy these outstanding show pieces—never before available. They'll be the joy of your garden and a treasure forever. **PRICE: 4 for \$1.00; 10 for \$2.25; 25 for \$4.95; 50 for \$9.50, post-paid.**

RUBY TREE (Prunus Newport)

2524—A most unusual dwarf tree that many people call the most beautiful in the world. Completely covered from the very first day of spring until late fall with rich lustrous burgundy leaves which are even more spectacular in contrast to the green of your lawn. This spectacular tree will thrive in any soil and is perfectly hardy in even the coldest sections. The well rounded form, and ultimate height of only 10 feet, make this the perfect specimen for the smallest home to the largest estate. **Sturdy, well branched trees, 5-6 ft., \$2.50 each. 4-5 ft., \$2.25 each.**
